

# CAPABILITY STATEMENT

## CAPABILITY NARRATIVE

PHLX Tactical provides coordinated precision manufacturing support to government and defense customers for build-to-print and machined component requirements.

Through a vetted network of qualified manufacturing partners, we deliver scalable production solutions that meet tight tolerances, demanding schedules, and complex specifications.

Our focus is simple: quality execution, accountable coordination, and reliable delivery.

## CORE COMPETENCIES

- **Precision Manufacturing Coordination** – End-to-end support for build-to-print components serving government and prime contractors
- **Advanced Machining Access** – CNC turning, milling, 4-axis, and 5-axis capabilities through qualified partners
- **RFQ & Production Management** – Full ownership of sourcing, quoting, supplier alignment, and production communication
- **Tolerance & Spec Verification** – Ensuring compliance with engineering drawings and delivery requirements
- **Rapid Response** – Next-day RFQ turnaround and responsive customer support

## PAST PERFORMANCE

PHLX Tactical has supported commercial firearm manufacturers and government prime-related opportunities through direct manufacturing, quoting, supplier coordination, and production support for precision-machined components.

Our experience includes build-to-print requirements, RFQ management, machining support, production alignment, and quality-focused oversight to help meet specification and delivery expectations.

## DIFFERENTIATORS

- **Single Point of Contact** – End-to-end manufacturing coordination
- **Qualified Network** – ITAR, CMMC, AS9100 & ISO-certified partners
- **Scalable Production** – Low to high-volume support
- **Rapid Response** – Fast RFQs and clear communication
- **GovCon Ready** – Aligned with federal requirements

## Corporate Data

**UEI:** VQMULC9KZFQ4

**CAGE:** 199E9

**SOCIO-EC:** Small Business

## Industry Codes

**332994** Small Arms, Ordnance, and Ordnance Accessories Manufacturing

**332710** Machine Shops

**332721** Precision Turned Product Manufacturing

**332510** Hardware Manufacturing

## Manufacturing Network Includes:

- ITAR-registered manufacturing partners
- CMMC Level 2 compliant manufacturing support
- AS9100 and ISO 9001 certified quality systems
